

Fauzia Ben Sliman

-Digital Designer

Dedicated UX/UI and graphic designer with a background in web development. Passionate about creating user-friendly and aesthetically pleasing digital solutions, with expertise in user-centered design, visual communication, and responsive frontend development.

EDUCATION

Digital Design Program
Kristianstad University (2023-ongoing)
Web Developer Program
Mid Sweden University (2021-2022)

PROJECTS & EXPERIENCE

Studies in Digital Design (Kristianstad University) and Web Development (Mid Sweden University) have provided me with strong skills in UX/UI design, graphic design, and frontend development. I have worked with:

- UX & Interaction Design: Developed user-centered prototypes and wireframes in Figma for optimized interaction flows.
- Visual Communication & Graphic Design: Designed logos, digital materials, and print collateral with a focus on typography, color composition, and branding.
- Web Design & Frontend Development: Built responsive websites and developed WordPress themes.
- Modern Web Development: Created performance-optimized web solutions using Vue.js, TypeScript, npm, and OOP.
- Project Work & Methodology: Developed digital products and web applications using methods such as Design Thinking and iterative design.
